

Removing plants & other bits

The Clean Team have continued to keep busy throughout October & November.

Litter picks have continued below is an email from Hilary one of our committee members commenting on Saturday 19th November litter pick at Somerfield Store.

Just to report there were 4 of us today on the pick. Diane Stone, Margaret, Joan and I. Di and Margaret did around the school and St Anns Rd, Joan and I did the park and around the astro turf. Joan and I collected 3 full bags.

I continue to litter pick on Sunday mornings on my way to Bell Ringing and continually spot other Clean Team members around the town.

For Remembrance Sunday there was a frantic litter pick to ensure the Bull Ring area was clean for the parade & service.

We have also requested that the Town Centre has a spruce up for Christmas with the help of Streetscape & the Gumblaster machine.

Today Sunday 20th 6 members worked through the cold November afternoon to remove the plants which were planted in May. To tidy up ready for next spring.

July - September 2005

I was really pleased to be invited along with Janet & Stephen to talk to residents of Great Sankey about the Clean Team.

Councillor Trudi Wood is in the early stages of recruiting members for a Warrington Clean Team & invited us to tell them how we started and what can be achieved!!

I am also attending Alsager on July 19th along with fellow committee members Janet & Stephen for a similar purpose. This is really exciting for us and also gives us the chance to try out our new equipment (laptop & projector) which was purchased by means of a grant from the Cheshire Constabulary. This enables the Clean Team to talk to groups in a more professional way.. we mean business!!
